Summary

A motivated and adaptable individual with experience in online education, entrepreneurship, and emerging software development. Skilled in delivering virtual instruction via Zoom-based e-learning platforms, with strong communication and the ability to simplify complex concepts for learners. Has explored multiple business ventures, gaining practical experience from both successes and failures, which has strengthened resilience, adaptability, and problem-solving skills. Currently developing competencies in web and mobile application development and cybersecurity, with a strong focus on continuous learning and building practical digital solutions.

Professional Experience

Eleaders Network

full stack developer

10/2025 – Present | lagos nigeria

thesocschool

Online E-learning Instructor

08/2024 – 2025 | Maryland, United States

- Facilitated live online learning sessions via Zoom for students on The Soc School platform
- Developed strong student-teacher interaction in a virtual environment to enhance learning outcomes
- Adapted instructional delivery based on individual student needs and understanding levels
- Improved learner engagement through interactive teaching and real-time feedback during classes
- Strengthened remote education delivery by creating a supportive and responsive online classroom experience

Projects

ClipClip

Clipboard Security Demonstration Tool

09/2025 – 09/2025

- Developed a proof-of-concept tool for a blockchain security class to demonstrate clipboard-based attack vectors
- Showcased how malicious software can intercept and alter copied wallet addresses
- Highlighted security vulnerabilities in user transaction workflows and digital asset handling
- Emphasized user awareness and preventive security practices in cryptocurrency usage

DripBox.ng – E-commerce Store

Co-founder

08/2023 – 08/2024

- Co-founded and launched a Nigerian e-commerce store. Handled product selection, UX design, and retail operations. The venture ran for a year before closing — a valuable lesson in product-market fit and early-stage execution

FutureFestcln

12/2025

- Developing a web platform for artists to promote and manage upcoming live events
- Focused on user interface design and event discovery experience
- Building core features for event listing, promotion, and audience engagement

- Currently in prototype stage with ongoing feature development

GETEASY

Service Aggregator Application

2026

- Designing a platform that connects service providers with users seeking on-demand services
- Working on system architecture, user flow, and matching logic between providers and clients
- Exploring scalable backend solutions and mobile-friendly interface design
- Focused on simplifying service discovery and accessibility

Interests

- Emerging technologies, mobile systems, and cybersecurity trends
- Technical writing and idea development inspired by personal development and finance literature (e.g., Think and Grow Rich)
- Cryptocurrency market analysis and educational content creation (crypto influencer content development) 
- Fitness and structured exercise routines for discipline and performance optimization
- Lead, Mastermind Group (Software Engineering & Cybersecurity) — Facilitated peer learning and technical discussions on mobile development, blockchain tech, and security. Education
